Award-Winning and Proven Innovation

VS TOP® Down Makes Life Easier!

Birmingham, March 3, 2024. **Almost nothing is worse than having to search for something in a wall unit on tiptoe and realizing that the objects you are looking for are at the back. But with VS TOP® Down, this situation is a thing of the past! This revolutionary - and now established - innovation has received a renowned design award for its outstanding properties. When it comes to ergonomically difficult-to-access wall units, VS TOP® Down sets new standards. It's never been this easy to get what you want!**

A simple pull on a handle that has been invisibly integrated is enough—and the elegant sheet steel shelf gently glides out of the unit to provide you with convenient access to the contents. This is a universal design experience. VS TOP® Down is the perfect solution for anyone who never wants to complain about their height again. Without having to stand on tiptoe or use a ladder, you can easily grasp the contents of your wall unit. The unique drop-down fitting sets standards in ergonomic storage space optimization and ensures that the space beneath the shelf remains usable. The best part is that VS TOP® Down can easily be retrofitted and is suitable for both wall units with hinges and those with gas strut fittings. The spring force can be manually set in five stages to ensure a constantly moderated drop-down movement. VS TOP® Down boosts functionality in the kitchen and does its part to optimize urban living spaces everywhere. This truly pioneering innovation will elevate your kitchen to the next level!

VS TOP® Down has received the Golden Award – Best of the Best in the kitchen furniture and equipment category from the Kitchen Innovation Award. This award honors the system's outstanding functionality, innovation, product benefits, design, and ergonomics.

The fitting is available in two different widths – 24" (600mm) and 36" (900mm) – and with one or two shelves. Two color variants are available: silver and lava. In the U.S., there is also a special version in the new LIGANO design.

As a processor, you can also purchase single fitting sets and use a base of your choice. This offers an infinite number of options for customization. The manual spring force setting feature ensures a constantly moderated drop-down movement and makes access to the contents of the wall unit easier.

The VS TOP® Down is expected to be available from summer 2025.

VAUTH-SAGEL:

Contemporary, innovative storage solutions. This has been the core business of Vauth-Sagel for over 60 years. When it comes to all of its system components, the owner-operated family company focuses on people's desire for as much convenience as possible. The development, production and sales divisions are guided by this desire – every day. The company transferred its core expertise in the kitchen and furniture industry to modern living components long ago. And this motivates its 1,000 employees to manufacture over 85 million products with the “Made in Germany” quality hallmark every year. Alongside many years of expertise in a wide range of materials, other characteristics ensure that Vauth-Sagel customers worldwide are a decisive step ahead: “Creating high-quality system solutions for living spaces. For all people” – this promise is based on pioneering ideas for product design and features. This is Vauth-Sagel!
