*Birmingham, March 3, 2024. Renowned for decades in the realm of kitchens, Vauth-Sagel now extends its expertise to housekeeping, showcasing creativity and innovation. Managing dirty laundry poses a unique challenge in every household, whether the washing machine is located in the basement, utility room, kitchen, or bathroom. Finding a suitable and spacious place for laundry is crucial for convenient living space design, and Vauth-Sagel's VS WASH® series offers an elegant solution for sorting, storing, and transporting dirty laundry - neatly and discreetly.*

Designed to optimize existing space and simplify workflows in the kitchen and utility room, the VS WASH® series meets everyday requirements with practical and thoughtful design. The laundry hampers are available in a unique variety of types, offered in heights of 19 ½" and 23" (460 and 550 mm). Choose between two color variants: Basic color lava with a lava-colored carrying handle, and white with a light grey carrying handle. Capacities range from 31qt to 93qt (32 to 88 Liter). A standout feature is the hampers' perforations, ensuring optimal air circulation while protecting the laundry. Equipped with carrying handles, these hampers simplify transport, even when transporting two simultaneously. The drop concealed behind the front seamlessly integrates into any living space. Both technically and visually, all VS WASH® systems are based on the proven waste separation systems of the VS ENVI® Space range.
