Unrivalled becomes easy and unique

Never before has there been such a concession!

Erkeln, 22 August 2022 – **Objects in a wall cupboard can be a challenge, depending on your height. Especially if items are placed in the back. With the innovation VS TOP® Down, this has now come to an end. The system sets a new standard in the ergonomically difficult-to-access wall cupboard area! A minimal pull on the handle element, which is invisible from the outside, is all it takes for the elegant sheet steel shelf to gently emerge from the wall cupboard and make its contents conveniently accessible - all in keeping with the Universal Design.**

The VS TOP® Down is the right choice for all those who want to reach high without having to outgrow themselves. Because that's what the VS TOP® Down does. Without having to get up on your toes, the contents of a wall cupboard are reached effortlessly. The unique drop-down fitting makes it possible and sets standards for ergonomic storage space optimisation in the wall cupboard. Especially practical: the space below the shelf can still be used.

The VS TOP® Down is easy to retrofit and is suitable for wall cupboards with hinged doors as well as with fold-in fittings. In daily use, the shelf can be optimised at any time: The manual spring force adjustment ensures a consistently damped lowering movement. VS TOP® Down thus enriches functionality in the kitchen and contributes to optimising the urban living space.

VAUTH-SAGEL:

Contemporary and innovative storage solutions. This is the essence of what Vauth-Sagel has stood for for 60 years. The owner-managed family company focuses on people's desire for the highest-possible level of comfort in all of its system components. The competence areas of development, production and sales are geared towards this - day after day. The core competencies in the kitchen and furniture industry have long since been transferred to modern living components. And that motivates the more than 1,000 employees to produce more than 85 million products with the quality mark "Made in Germany" every year. In addition to many years of cross-material expertise, there are other features that ensure that Vauth-Sagel's global customers are that decisive step ahead: "Creating high-quality system solutions for living spaces. And doing that for everyone" - this promise is based on forward-looking impulses in product design and equipment. THAT is all Vauth-Sagel!
