### **VS ADD® Separator: Perfect for more organisation**

Pordenone, 17/10/2023 – The VS ADD® Separator from VAUTH-SAGEL is a small yet pioneering solution for organising wall and base units and establishing order. Unlike conventional “junk drawers”, the VS ADD® Separator enables the custom division of the objects in the ESSENTIO and PLANERO® design shelves. Thanks to its infinite adjustability, the product from VAUTH-SAGEL offers unlimited options in the kitchen and housekeeping areas. Two integrated magnets ensure secure adhesion to the metallic rails, and the rubber coating on the inside reduces noise and avoids scratches on the surface.

“This innovation emerged from our universal daily experience and the basic need for order. Functional, practical and designed for flexible use – it’s simply smart,” said CEO Claus Sagel of VAUTH-SAGEL.

VS ADD® Separator is a magnet for order. With it, all desired objects are perfectly positioned for more tidiness in the room – irrespective of which room. The system can be installed in a number of ways, adheres to all metallic surfaces and has the same thin wall quality and material as the PLANERO® and ESSENTIO shelf variants. VS ADD® Separator is a seamless visual addition to these design lines. After all, the same materiality of powdered steel sheet and the optimally coordinated, streamlined design supports their perfect interplay. The finishing touch: In combination with the VS ADD® Board and VS ADD® Box organising elements, VS ADD® Separator brings smart order to all areas of the home.
